# Overview of Process Fact Sheet Subgroup Training Materials
## Vapor Intrusion Mitigation Team | December 2020

The Process Fact Sheet subgroup of ITRC's Vapor Intrusion Mitigation Training team prepared a three fact sheets to support training on vapor intrusion (VI) mitigation:

- **Design Considerations Fact Sheet**
- **Post-Installation Fact Sheet**
- **Operations, Maintenance, & Monitoring/Exit Strategy Fact Sheet**

The information presented in these fact sheets is supported by the following additional work products that were prepared by other subgroups within the Vapor Intrusion Mitigation Training team:

*Conceptual Site Models for Vapor Intrusion Mitigation*

- **Conceptual Site Models for Vapor Intrusion Mitigation Fact Sheet**
- **Vapor Intrusion Mitigation Conceptual Site Model Checklist**

Public Outreach during Vapor Intrusion Mitigation

- **Public Outreach during Vapor Intrusion Mitigation Fact Sheet**

Checklists for Active & Passive Mitigation Approaches

- **System Design and Documentation Checklist**
- **Post-Installation System Verification Checklist**
- **Operations, Maintenance, & Monitoring Checklist**

The **acronyms**, **glossary terms**, and **references cited** in these documents are also available on the Vapor Intrusion Mitigation Training team website.
